2022-2023 Program Year

non-prescription product authorization

All over-the-counter (OTC) products need parental permission for administration. However, some of these external products do not need to be documented every time you use them. The following is a list requiring parental permission only.

TO BE COMPLETED BY PARENT

Child's Name _____ Date of Birth _____

Program: Infant Toddler Preschool Pre-K

The following external products may be applied to my child in accordance with the manufacturer's instructions on the original container:

- Diaper wipes
- Diaper creams, ointments
- Skin lotions/creams/vaseline: specify if special brand: _____
- Baby oil (baby powder is not recommended due to inhalation hazards)
- Soap, specify if special brand: _____
- Sunscreen, specify if special brand: _____
- Insect Repellants: specify if special brand: _____
- Lip balm
- Chemical hand sanitizers
- Toothpaste (an internal product but does fall under this category)
- Other – please specify: _____

NOTE: Teething gels are considered OTC medications, not products (use non-prescription medication form). Teething gels are not recommended and need to be used with extreme caution. They have been known to numb the throat which causes a potential choking hazard.

Parent/Guardian's Signature Required: _____

*Unused products: Returned to parents? Yes No

Discarded appropriately by: _____ Date: _____

Keep this form in the child's file when medication is finished.
All oral medications needs Prescription or Non-Prescription Medication Authorization/Administration Form completed.
